

# NEW NCD DAC TRACKING CODES

Brenda Killen, Deputy Director, OECD-DCD

## New NCD DAC Codes

---

- Implemented in DAC members' 2019 reporting on 2018 ODA flows
- Divided into the following categories:
  - NCDs control, general
  - Tobacco use control
  - Control of harmful use of alcohol and drugs
  - Promotion of mental health and well-being
  - Other prevention and treatment of NCDs
  - Research for prevention and control of NCDs

The first data reported against these new codes will be available in December 2019.

# Global Outlook (GO) of Development Finance

---

**GO recommends to go beyond “mobilizing” new resources (including through blending, risk sharing) and focuses on “maximizing” resources, in 3 ways:**

- (1) Better articulating the various sources of Funds for Development for increased leverage and catalytic effects**
- (2) Increasing the effectiveness and quality of financing flows – ex. by promoting capacity building and transfers in pharmaceutical value chains**
- (3) Better harnessing interlinkages and synergy of various financing sources**
